

To ensure that this technology can be seamlessly integrated into your home & life, everything has been thought through. We've partnered with trusted leaders in home security & home automation, & we've developed innovations specifically for Home Connect Technology.

Black & Decker is a member of the ZigBee and Z-Wave Alliances

Partnering with:

There's a new, smarter way to connect to your home, it's called Home Connect Technology. This technology works by allowing your front door lock to wirelessly talk to other things in your house, such as the security system, lighting, thermostat, & entertainment system.

Unlock the Possibilities

Introducing SmartCode™ with Home Connect™

SMARTCODE

RESIDENTIAL ACCESS CONTROL

Home Connect™ Technology

Kwikset's Home Connect Technology enables the door lock to wirelessly communicate with other devices in the home.

Interoperability with Security Systems

- Locks Doors When System is Armed
- Disarms Security System When Door is Unlocked
- Communicates Door Lock Status

Interoperability with other Home Control Systems

- Lock Doors with Handheld Remote or Touch Screen
- Customize Lighting Scenes Upon Entrance
- Automatically Unlock Doors in Case of Emergency

Remote Access Control Capabilities

- Lock or Unlock Doors with a Mobile Device or Secure Internet Connection
- Check Lock Status Remotely
- Receive Notification and/or Video of Who Enters your Home and When
- Remotely Add or Delete Codes

Imagine opening the front door & having your house effectively greet you. The lights turn on to your exact specifications, your favorite music starts playing, & the A/C kicks in for that just-right temperature.

Also, imagine locking your door from your cell phone or receiving a text message letting you know your child just got home from school. Home Connect Technology has the power to make it happen.
